

Glove Guard® & Utility Guard® Glove Clips

- Breakaway center helps prevent individual from being pulled into machinery if attached items are accidentally caught.
- Small end of Glove Guard® clip attaches to a belt loop or directly to clothing, including one-piece coverall suits. The Utility Guard® clip slips over a belt, heavy waistband, or jacket pocket.
- Large end attaches to a variety of glove sizes and other articles such as cloth sleeve protectors, mechanic towels, earmuffs, and so much more.

Available Colors: Yellow, High Vis Yellow, Granite, Red, High Vis Pink, Lime Green, Blue, Black, Green, Olive Green, or Blaze Orange

Utility Bag® Safety Tote

- Breakaway center helps prevent individual from being pulled into machinery if attached items are accidentally caught.
- Open Mesh Utility Bag™ tote has Velcro® closure and open weaves which allows for visibility of contents and enable air to reach items such as gas monitors, goggles, and small hand tools.

Available in: 3" x 5", 5" x 8", and 7" x 10" in either black or blaze orange

- Soft Pouch Utility Bag™ tote has a drawstring closure and is great for holding prescription safety glasses, water bottles, ear plus, and more.

Available in: 5" x 9" High Vis Yellow, Orange, Lime Green, and Blue

- Zippered Eyeglass Utility Bag™ tote is a soft, formed case to hold safety glasses, prescription glasses or sunglasses.

All Utility Bags are available with small Glove Guard or Utility Guard belt clip end.

Handi Klip® Glove Clips

- Ball & Socket joint is a safety breakaway that can be reassembled and allows for full range of motion.
- Oversized jaws provide a strong grip on even the largest gloves

Available colors: Fire Red High Vis Pink, Signal Green, High Vis Yellow, Blaze Orange, Blue Black or Maroon

Common Features

- Non-conductive, no metal parts to rust, corrode or conduct electricity.
- Keeps gloves and other items close at hand and ready to use when and where they are needed. Our glove clips compliment safety programs.
- Lightweight, our clips weigh less than an ounce and moves freely out of the way in both standing and sitting positions.
- Engineered grade material: Our products are designed to be durable in all types of weather and maintain their memory with a tight grip that resists flex fatigue
- Interlocking teeth: Our clips have great grip and are designed to tightly hold a wide variety of materials

How to Buy

Contact your preferred safety supply company or call one from the partial list of Canadian distributors. When you call, ask for our products by name or go online and search for Glove Guard®.
