

INNOVATIVE PRODUCTS THAT HELP YOU
STAY HYDRATED & COOL

KEWLLID® COVER

The KewLid® cover is a support lid that is made to fit over the top of a 55-gallon drum or 44-gallon trash can to hold your beverage cooler in place while providing a trash receptacle and room for cups and single serve drink mixes.

WHO USES IT?

The KewLid® cover is perfect for the petrochemical, refining, construction or any business that has workers outdoors. It is also ideal for sports teams, youth leagues, parks, golf courses and anywhere you find active people outdoors in need of hydration.

The KewLid™ is easy to use. Just place it on top of either a 44-gallon trash can or a 55-gallon drum and it is ready to work. It supports a beverage cooler while leaving an opening to dispense trash.

Bottled water costs over 100 times as much as tap water per gallon and is no healthier or cleaner than tap water. In fact, bottled water isn't as tightly regulated as tap and can have more contaminants or bacteria. Bottles also create a huge environmental problem from both their production and disposal.
